Q. What is your favourite thing to do in your spare time?

A. I really enjoy playing softball and going to the gym in my spare time.

Q. Do you have any pets? What are they and what are their names?

A. I have a cat named Heidi and a goldfish named Jeff.

Q. What three things would you want with you on a deserted island?

A. I would have to think logically and bring food and my gym gear, but most importantly I would need to bring Gin with me!

Q. What is your favourite biscuit? Are you a dunker?

A. My favourite biscuit would have to be a Bourbon Cream, and no I am not a dunker.

Q. If you were stuck in a lift and were going to be there for more than two hours, which colleague would you want with you, and why?

A. It would have to be the one and only Bobby Watt, for the entertainment factor!

Q. What is your favourite part of your job?

A. I have to say that the most favourite part of my job is the variety!

Pictured above is Laura, looking fabulous as always!

Pictured left is a cute Heidi!

Health & Safety Corner

Safety Harness & Lanyard Inspections are essential to ensure the safety of the user and also the people in the surrounding environment. It is recommended by the HSE that there is a detailed inspection at least every six months.

Training and more information is available, please see the poster below for your points of contact.

Safety Harness & Lanyard Inspections

All staff using a harness and lanyard should have received training and recorded centrally in HQ.

If you have any queries, contact debbiew@robinson-services.com

A safety harness and / or lanyard equipment inspection checklist is used by workers at heights to ensure that a safety harness is in good condition before use and reduce the risk of falling.

Complete the inspection by rating the overall condition of the harness and whether it can be used or should be removed from service.

The inspection regime should include:

- Harnesses & lanyards to be inspected (including their unique identification);
- The frequency and type of inspection (pre-use checks, detailed inspection and, where appropriate, interim inspection);
- Designated competent persons to carry out the inspections;
- Action to be taken on finding defective lanyards;
- Means of recording the inspections;
- Training of users; and
- A means of monitoring the inspection regime to verify inspections are carried out accordingly.

If you have any queries regarding the above, please contact joeh@barrhall365.com
